Subject: CSTAG update

I cancelled the Wed. meeting – not much to report.

We should get the Reg. 10 response on Portland Harbor by the end of the month and then post both of them at the same time on the web.

Nothing new from GAO, we are sending them any CSTAG memos and responses, and any Tier 1 memos they could not find.

Non-responsive

A large rectangular area of the document is redacted with a solid gray fill. It covers the text following the 'Non-responsive' header and extends across most of the page width. There are three distinct horizontal segments of redaction, suggesting multiple lines of text were obscured.
